Explanations to Sections 2 and 8 if you move from Finland to Estonia or from Estonia to Finland.

1. Estonia and Finland exchange Population Register data.

2. If you move from Finland to Estonia, your Estonian residential address will be forwarded to Finland and entered in the Finnish Population Register. This will end the validity of your Finnish residential address in the Finnish Population Register. If you are a Finnish citizen and later change your place of residence in Estonia, any new residential address will also be forwarded to Finland.

3. If you move from Estonia to Finland, your notice of place of residence will be reviewed after three months have passed since its submission and Finland has not forwarded your Finnish residential address to Estonia within that period. In this case, the local government will contact you and you must submit a document proving that your Finnish residential address has been entered in the Finnish Population Register.
